SUMMARY

- Independent, reliable and friendly individual who works hard to achieve her goals.
- Adapts easily, and is well organized. Quick study and interested in learning new web development skills.
- Able to work well in teams as well as individually. My future goal is to become a senior fulll-stack web developer.

WEB DEVELOPMENT SKILLS

- **Frontend**
  HTML/HTML5, CSS, JavaScript, Bootstrap, React, React-Native, Angular, Parcel
- **Backend**
  Node.js, Express, MongoDB, REST API, AWS, Postman
- **Additional**
  Jest, Cucumber, Puppeteer, Expo, Canva, Figma

PROJECTS

- **Chat App**
  React-Native chat app, built using Gifted Chat and Expo. Has login and chat interfaces. Users can send messages, images and location.
- **Meet App**
  React PWA connected to a Google Calender API. Authentication using Google Auth. Users can choose venue or type of event to get both list of events and stats about them.
- **MyFlix**
  REST API created with JavaScript, MongoDB, Express and Node.js. Created two similar frontends, one with React and one with Angular. Users can register, login, browse collection of movies, view info about movies and add/remove movies from favorites.
- **To-do List**
  Built using HTML, CSS and jQuery. Users can create a to-do list. Items can be added, crossed out, rearranged and deleted.
